

REMOTE SSH SYSTEM REPORT

Generated: 2026-04-24 11:13:19

Target Host: localhost:22

Username: abhis

Here is the report:

****System Overview****

Generated: 2026-04-24 11:13:19

Target Host: localhost:22

Username: abhis

Target OS: Windows

****CPU Status****

Model: 13th Gen Intel(R) Core(TM) i5-13500H

Cores: 16

Load Percentage: Unknown

****Summary****

Total Processes: 366

****RAM/Memory Status****

Free Physical Memory: 7320696

Total Visible Memory Size: 14414712

****Storage Status****

Caption FreeSpace Size

C: 23731564544 234844319744

D: 58192293888 274876854272

****Network Status****

Name ReceivedBytes ReceivedUnicastPackets SentBytes SentUnicastPackets

Wi-Fi 3416127232 763330 216912594 623326

****Observations****

- Memory health: The system has a significant amount of free physical memory, indicating good memory health.
- Storage health: Both C: and D: drives have ample free space, suggesting good storage health.
- CPU health: The load percentage is unknown, making it difficult to assess CPU health.
