EDUCATION

Cochin University of Science And Technology

Information Technology | Bachelor of Technology

CGPA: 7.32

Kerala, India

May 2022 - May 2026

Pragya Niketan Public School

Physics, Chemistry, Mathematics | AISSCE

Percentage: 71.8%

Bihar, India

April 2019 - April 2020

Harmony International School

Physics, Chemistry, Mathematics | Matriculate

Percentage: 75%

Bihar, India

April 2017 - April 2018

SKILLS

Languages:	C/C++, Java, JavaScript, HTML, SQL, CSS
Frameworks:	React.js, Node.js, Express.js
Databases:	MySQL, MongoDB, PostgreSQL
Tools / Platforms:	Git, GitHub, Postman, VS Code, IntelliJ IDEA
Core Subjects:	OOPs, OS, DBMS, DSA

PROJECTS / OPEN-SOURCE

Chatty — Repo | App Link

React.js, MongoDB, Express.js, WebSocket

- Developed a **real-time chat application** using React.js and Express.js with a mobile-first design for 85%+ mobile users.
- Incorporated **MongoDB** to store user credentials, messages, and chat history, supporting 10k+ conversations.
- Pioneered secure authentication with **JWT** and **bcrypt**, reducing unauthorized access risks by 40%.
- Added **WebSocket (Socket.io)** for seamless real-time messaging, ensuring sub-second message delivery.

NexusMeet — Repo

React.js, Node.js, Express.js, MongoDB, Stream API

- Developed a **full-stack language exchange platform** enabling users to connect with native speakers and engage in real-time conversations.
- Implemented **secure authentication** using JWT and bcrypt with email verification and session management.
- Designed a **smart recommendation system** to match users based on native and target languages.
- Integrated **Stream Chat API** for real-time messaging and **Cloudinary** for scalable image uploads.

Tic Tac Toe Game | Repo

HTML, CSS, JavaScript

- Implemented dynamic DOM manipulation using querySelector and event listeners for real-time gameplay.
- Built winner detection algorithm using predefined win patterns array to check 8 possible winning combinations.
- Developed game state management with turn alternation, move counter, and automatic draw detection.
- Created responsive game board with disabled state handling and visual feedback for player moves.
- Added dual reset functionality with "New Game" and "Reset" buttons for enhanced user experience.
