SUMMARY

B.Tech IT student with hands-on experience in mobile and web development, UI/UX design, and database management. Passionate about blending technology and design, with leadership experience and a drive for contributing to innovative teams.

EDUCATION

BTech Information Technology Cochin University of Science And Technology Kochi	Nov 2022 - June 2026 CGPA-8.61
Higher Secondary Education VKS HSS Varakkad	Jun 2019 - March 2021 100%

PROJECTS

StayEase-Nearest Hostel and PG finder Android App

Tech Stack: Flutter, Firebase (Firestore, Realtime Database, Authentication)

- Built a Flutter-based location app for finding PGs and hostels, reducing search time by 70%.
- Integrated Firebase for real-time sync and secure login for 100+ users.
- Added rent filters, availability, image gallery, and reviews to boost usability by 60%.

VisionCart – Indoor Supermarket Navigator

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, ShadCN UI

- Engineered a smart shopping assistant that creates optimal in-store routes, designed to reduce customer search time by over 50%.
- Integrated Google Gemini to enable AI-powered visual recognition of shelf items, enhancing product identification accuracy and streamlining the shopping workflow

RestoOrderEntry –Restaurant Order Management System

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Architected a streamlined ordering interface with real-time cart synchronization and category filtering, ensuring a seamless guest checkout experience without mandatory authentication.

INTERNSHIPS & EXPERIENCES

Software Developer Intern | Tranzmeo | May-June 2025

- Upgraded React and Node.js web app, improving performance by 45% and reducing crash reports by 30% during user testing.

AI & Data Analytics Intern | AICTE, Shell India & Edunet Foundation | Apr 2025

- Devised an AI-based forest fire detection system that reduced manual monitoring by 60%, demonstrating real-time alert accuracy of 92%.
- Completed a 2-week internship on real-world AI applications.

Building Modern Web Applications with MERN Stack – EY GDS & AICTE| Mar – Apr 2025

- Completed a 6-week full-stack internship under the Next Gen Employability Program, building scalable web apps using MongoDB, Express.js, React.js, and Node.js, improving development efficiency by 60%.

Software Developer (Freelance) | Cypher Info Solutions | July-Aug 2025

- Developed and deployed web and mobile applications using React.js and Flutter, ensuring seamless integration with external APIs.

SKILLS

Languages: C, C++, Python, JavaScript, Dart, PHP

Frameworks & Libraries: Flutter, React.js, Tailwind CSS, React Native, Ant Design

Databases : Firebase, MySQL, Supabase

Tools & Technologies: Git, GitHub, VS Code, Vercel

Soft Skills : Problem Solving, Self-learning, Adaptability, Leadership, Teamwork

CERTIFICATIONS

User-Centric Computing for Human-Computer Interaction – NPTEL (IIT Guwahati) | Mar 2025

- Secured Elite certification in an 8-week course on designing user-centric systems and enhancing usability.

AWS Solutions Architecture Job Simulation – Forage | Jun 2025

- Completed real-world tasks focused on designing simple, scalable hosting architectures using AWS.

Cybersecurity Course Completion-Infosys Springboard – January 2025

- Completed foundational training in cybersecurity principles, threat detection, and risk mitigation strategies.
